CONTENT SYNDICATION EXERCISE

The exercise will be done individually.

Create an RSS and an Atom of 3 "news" generated by the company or organization that you have used in the projects of the first, second evaluation or another invented by you for this exercise.

MINIMUM REQUIREMENTS TO PASS:

- The RSS file is composed of 3 news.
- The RSS file is valid against the W3C's online validation tool.
- The RSS file contains 4 optional elements.
- The Atom file is composed of 3 news.
- The Atom file is valid against the W3C's online validation tool.
- The Atom file contains 4 optional elements.

CRITERIA TO RAISE THE GRADE:

- Add more than the 4 optional elements required as a minimum.
- Add more than the 3 news required as a minimum.
- Create an XSL transformation that shows an attractive design when being launched with Firefox.
- The code created in the RSS and Atom files is perfectly tabulated and contains comments to clarify their sections.
